

CONK THE CROW FRAME GAME

Item # 2512

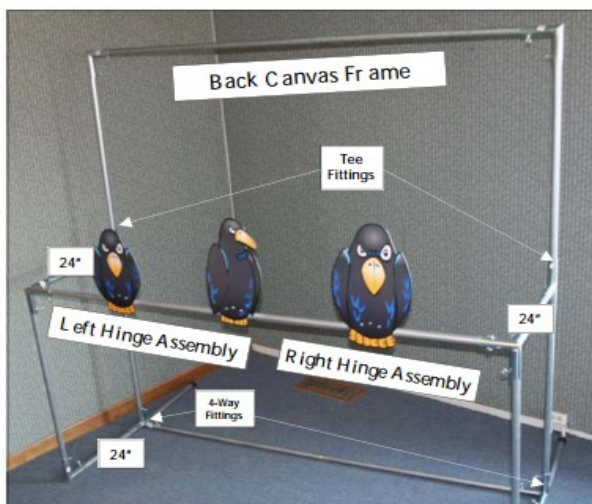

845.226.2447

Conk the Crow

Assembly Instructions

1. Select a level area to operate game with plenty of room to allow for a line to form.
2. Assemble the framework, per photo. Note that the eight longer pieces of tubing are used to form the frame for the back canvas (2 per side). Slide a "Tee" Fitting onto each side of the back canvas frame. These fittings join the back frame to the front. Insert the 24" lengths of pipe into the ends of each "Tee" Fitting and the ends of the 4-Way Fittings on the bottom of the frame. Place the Left Hinge Assembly (with the welded 3-way fitting) on the 24" and 41.5" unswaged pipes.
3. Slide two crows onto the Left Hinge Assembly and connect with the Right Hinge Assembly. Before connecting the Right Hinge Assembly to the loose 3-Way fitting, slide the remaining crow onto the pipe and then join with the 3-Way fitting.
4. Place the two shorter rubber-tipped pieces into the 4-Way fittings at the back of the game. These create the base. (Be sure to tighten down the fittings using the small bolts on them.)
5. Attach canvas to the framework using the Velcro straps. The top of the 7x7 back canvas will attach to the top of the frame, while the bottom of the canvas will attach to the Right and Left Hinged assemblies, forming a type of hammock to catch the errant bean bags. The smaller front panel attaches underneath the crows to create the front fence. The canvas should also attach along the side poles.
6. If using game outdoors, it is strongly suggested that you use the stakes provided on either side of the bottom supports. Use sandbags on pavement. And in a breeze, use sandbags with the stakes.

FRAME SET-UP

POWER REQUIREMENTS:

SPACE REQUIREMENTS:

W: 4'0", H: 6'6"

OPTIONAL EQUIPMENT:
