

SNO KONE MACHINE

Item # 1612

845.226.2447

INSTRUCTIONS:

Plug in the machine (please note that you may receive either style of machine pictured below), clear any equipment out of the compartment on the bottom that holds the shaved ice and turn on. Open arm of the machine and place ice into the chute. Push arm down on ice while simultaneously pushing the “shave ice” button until all ice is shaved and piled in the bottom of the machine. Grab a kone and scoop the desired amount of ice into the kone. Pump syrup flavoring on top of ice until it is all one consistent color (or mixture of colors). Enjoy!

POWER REQUIREMENTS:

Dedicated 20 AMP Circuit.

** Be Sure that nothing else is plugged into the same circuit

SPACE REQUIREMENTS:

OPTIONAL EQUIPMENT:

OTHER REQUIREMENTS:

Ice, flavor syrups, kones

Rinse sno kone machine with warm water and a rag. Be sure the machine is unplugged before attempting to clean!!
